Date: August 11, 2009

To: Red Bluff Area
Attention: Lieutenant H. N. Linschoten

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A7146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on June 29 – 30, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI randomly selected items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 364 items (a). The statistically-valid sample at a 95 percent confidence level \pm 4 percent error rate provided a total sample size of 76 items [subtotal of (c)]. Each OPI inventory list was stratified [(b) x subtotal of (c)] and the results rounded to the nearest whole number (d) to ensure all inventory lists were proportionally represented in the statistically-valid sample.

| | Population Size (a) | Percentage of Total (b) | Calculated Sample Size (c) | Predetermined List Sample Size (d) |
|-------------------|------------------------|-------------------------------|----------------------------------|--|
| ICU Decals | 140 | 38.46% | 29.22 | 29 |
| Telecom. | 134 | 36.81% | 27.97 | 28 |
| Fleet | 23 | 6.31% | 4.79 | 5 |
| Weapons | 67 | 18.40% | 13.98 | 14 |
| Subtotal | 364 | 99.98% | | 76 |
| Additions | 0 | 0 | | **3 |
| Total | 364 | *100% | | 79 |

*Total rounded up to the nearest percentage.

Safety, Service, and Security

Red Bluff Area

****Note:** Three additional items were selected as replacements for some of the unavailable items on the predetermined property inspection list. Two of the three items reconciled and one item was unavailable for inspection due to the employee being out of the office.

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, sixty-nine of the seventy-six items were located. Six items were unavailable for inspection due to employees being out of the office, and one item could not be located because it had been transferred to another command. Furthermore, two of the sixty-nine items require a correction be made to the property record. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment located at the command to the OPI inventory lists, sixty-two of the sixty-six items reconciled. Four items were not listed on the appropriate OPI inventory lists. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

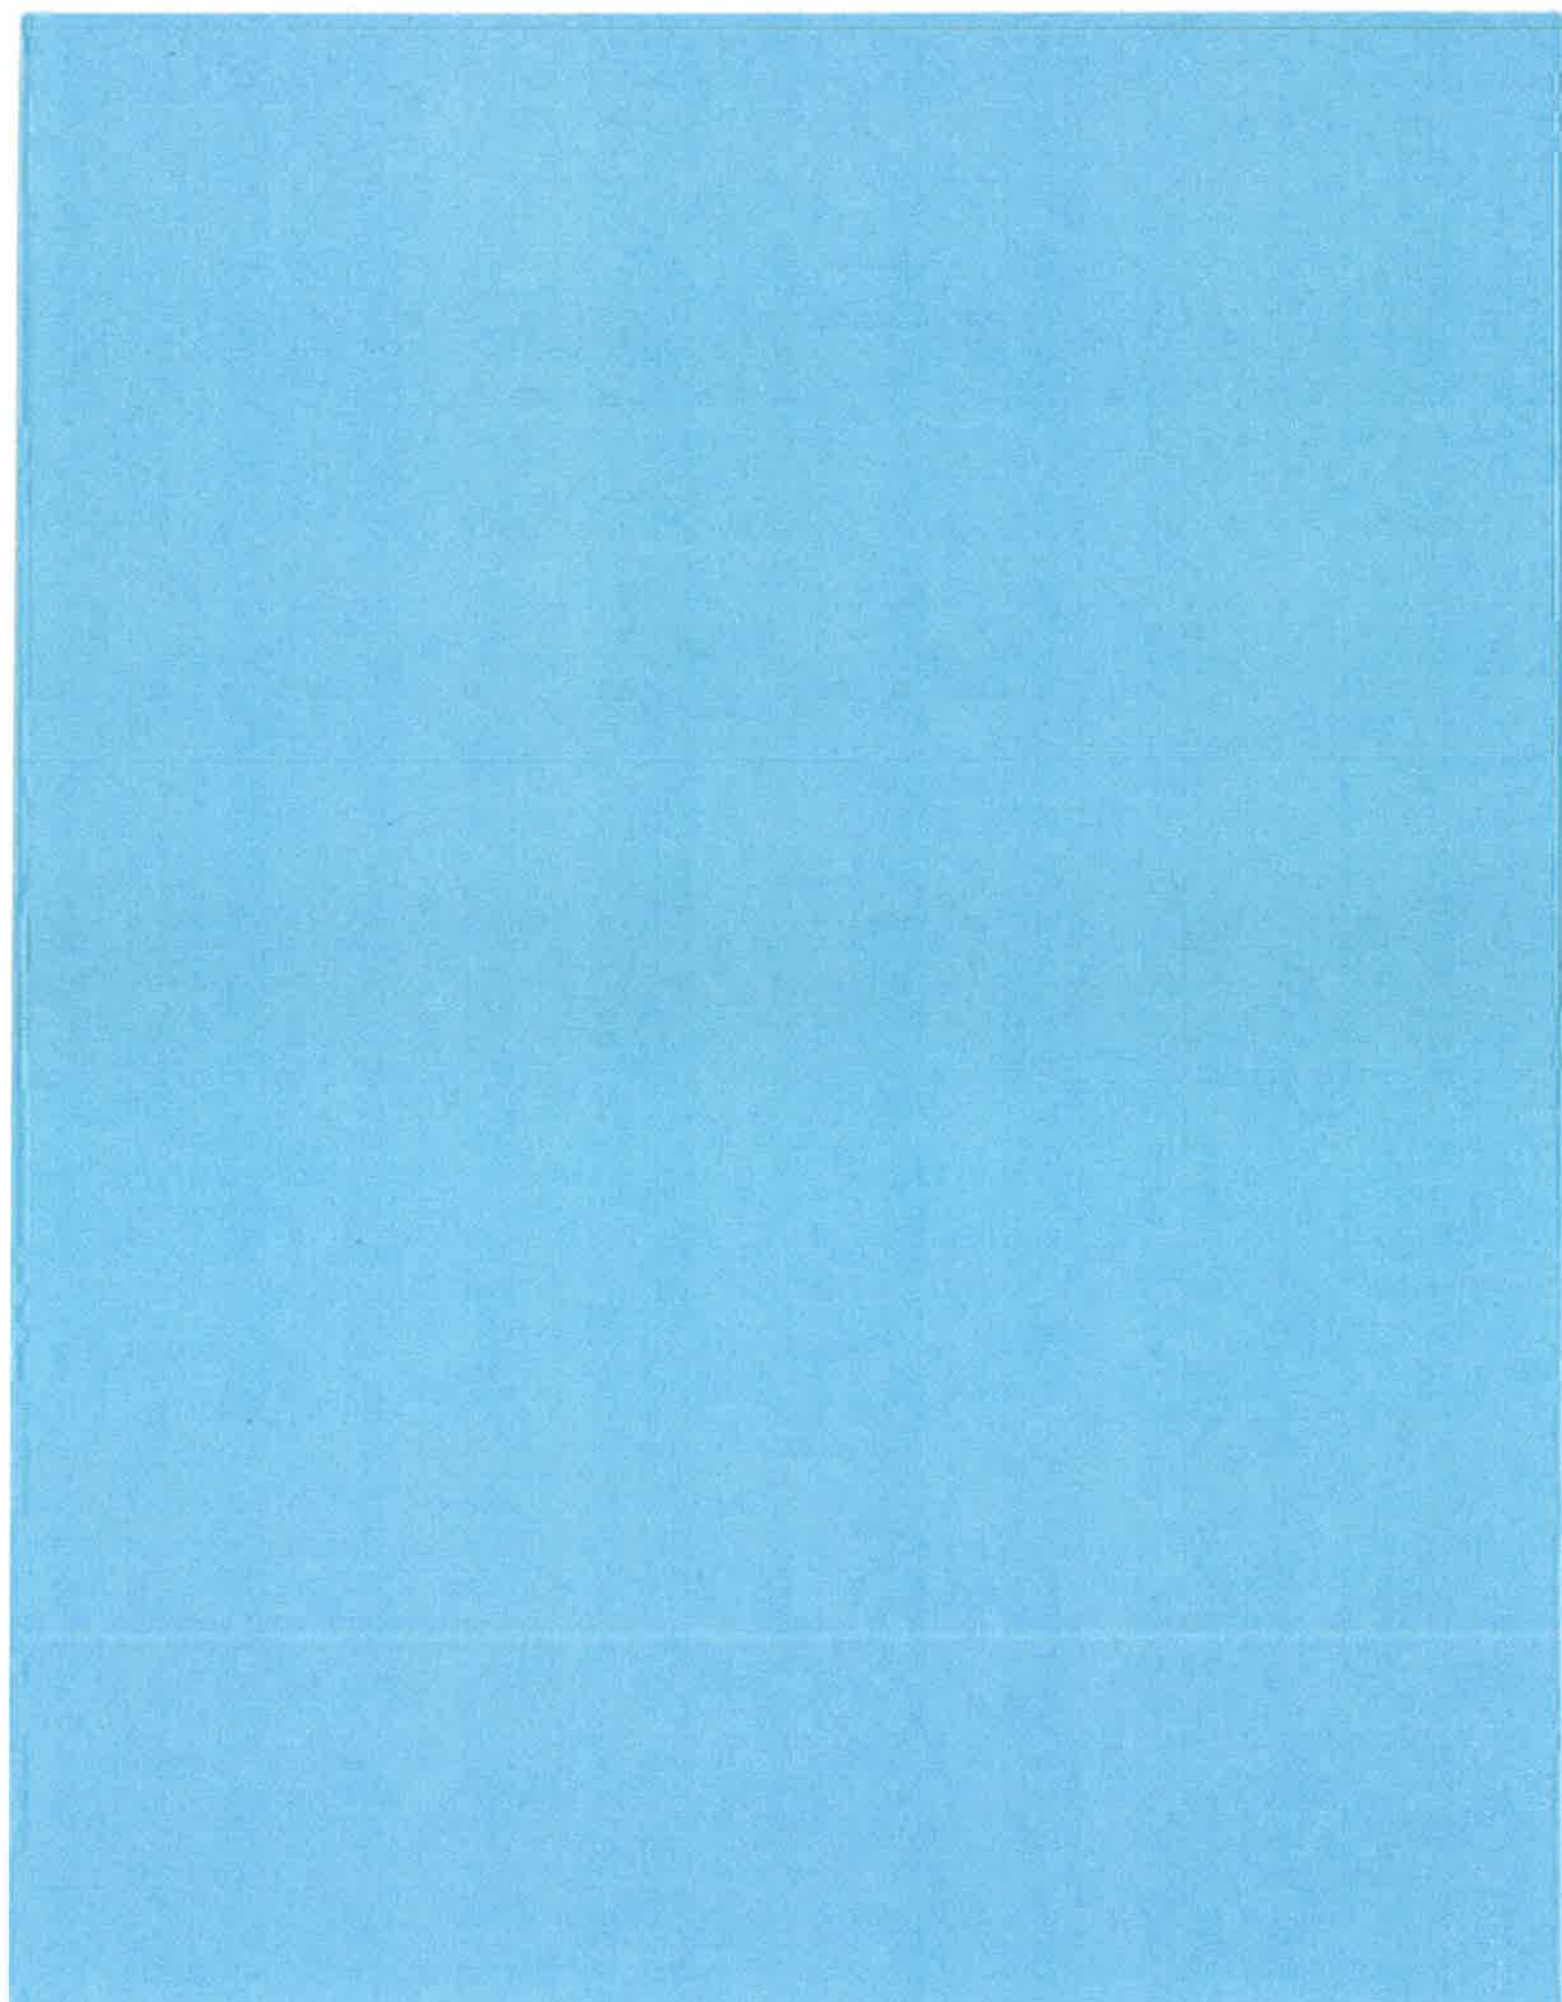

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by November 5, 2009.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 2000).

There is a growing awareness of the need to address the needs of people with mental health problems, and the importance of the role of the community. The World Health Organization (WHO) has developed a new approach to mental health care, based on the concept of 'recovery' (WHO 1993). This approach emphasizes the importance of the individual's experience of the illness, and the need to provide a range of services to support recovery. The WHO has developed a number of guidelines for the management of mental health problems, which are based on this approach (WHO 1993).

The WHO has also developed a number of guidelines for the management of mental health problems, which are based on this approach (WHO 1993). These guidelines emphasize the importance of the individual's experience of the illness, and the need to provide a range of services to support recovery. The WHO has also developed a number of guidelines for the management of mental health problems, which are based on this approach (WHO 1993).

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 2000). The prevalence of mental health problems has increased in the general population, and the incidence of mental health problems has increased in the prison population (Mental Health Foundation 2000).

There is a growing awareness of the need to address the mental health needs of prisoners. The Department of Health (2000) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (2000) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners.

The Department of Health (2000) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners.
